

Dear Patient,

As your primary care providers, we believe it is our responsibility to provide you with the best care possible. At times, this may include services for which insurance carriers deny payment. We recommend these services because in our professional judgment, they best meet your individual needs at this time.

Insurance carriers may deny payment for some services. Specific plan benefit information should be provided to you by your insurance company, and coverage is dependent upon your policy. **It is the responsibility of each patient to know their plan benefits.**

Below is a list of commonly denied services/procedures which may be performed today, and for which, Cascade Physicians cannot guarantee will be covered by your insurance. Your insurance may exclude the service under any circumstance, or they may deny based upon diagnosis (reason for the service.)

- Preventative Services (including Physical Examinations)
- Additional Evaluation and Management Services (problem oriented encounters) at time of Preventive Services, which may include copays
- Lab Tests
- Pap Smear
- EKG / ECG
- Routine Vaccinations
- Corn & Calluses
- Benign Lesion Removal (seborrheic keratosis)
- Cosmetic Procedures

**By signing this statement, you indicate that you understand the service may not be paid, based upon your specific insurance plan benefits. You agree to have these services provided to you, and accept responsibility for payment if your insurance denies payment due to plan exclusions.**
